

General Information

How to Install Envio onto a Workstation

Install Envio on your PC

1. On a Windows workstation with an internet connection, open a web browser.
2. Go to http://goenvio.com:85/EnvioClient_X64_V3/publish.htm
3. Click **Install** to begin the download process.
4. Click **Run**.
5. Click **Run** again.
6. Click **Install**.
7. When a login screen appears, enter your username and password
 - If you have not received a username and password, please contact support.
8. Once this process is complete, an icon will appear on the Desktop.

You can click the icon to launch Envio.

Troubleshooting

If you get a security warning about installing this software, do not worry. This software is safe for installation. Click Install Anyway.
