Go to the Run > Dump tab Right click on the header row of the **Available Items Grid** and select column chooser.

Drag the "Hybrid Tag Nbr" field onto the **Available Items Grid** and the **Dumped Items grid.**

If the Hybrid Tag is entered in the **TagNumber** box (toward the top of the Product Dump Window in a Run), all the associated child "tags" will be included.

You will see the tags associated with a Hybrid Tag in **Available Items**.

The result AFTER entering the Hybrid Tag Number in the "Tag Number" box.
